

Audit-Ready Reporting Automation SOP

Automate CIS/STIG audit reporting for RHEL systems using OpenSCAP and Ansible.

Step 1: Install Required Packages

```
sudo dnf install -y openscap-scanner scap-security-guide
```

Step 2: Ansible Playbook Template: See 'openscap_scan.yml'.

Step 3: Run Playbook: `ansible-playbook -i inventory.ini openscap_scan.yml`

Step 4: Retrieve Report: `scp user@target:/tmp/openscap-report.html ./reports/report.html`

Success Criteria:

- Reports generated automatically
- Compliance checks aligned with CIS/STIG
- Output ready for audit
